DESCRIPTION

The Custom is the best choice if you want to customise your line and make your own loops. Therefore we have added 2,5 extra meters to the line. Other than that it is the same line as the Adapted, with the same possibilities for switching between level running line and spey tapered ones. As with the Adapted the philosophy is simple and efficient.

Length, uncut: 13-15.3m.
Available in 8 densities
Line #6-7 - #11-12

SINKING RATES

Slow Intermediate	40 sec/ m
Fast Intermediate	20 sec/ m
Sink I	15 sec/ m
Sink II	12 sec/ m
Sink II/ III	9 sec/ m
Sink II/ IV	7 sec/ m
Sink II/ V	5.5 sec/ m
